

PFPNet – A Short Introduction

Simon Thurlbeck
Director and Founder, PFPNet

What is PFPNet?

- Technical organisation (not a trade association)
 - Not-for-profit
 - Not competitive – collaborative
 - Company subscription-funded
 - Steering Committee-led
- Technical topics decided by Members.
 - Subscriptions fund the outputs
 - Outputs specified and supervised Members
 - Outputs delivered by subcontractors or Members
- We may touch on areas that other organisations are involved with, but our focus is on fireproofing/PFP/CSP systems.

What does PFPNet Cover?

Systems

- Fireproofing, PFP and CSP systems
- All systems - not just coatings

Hazards

- Hydrocarbon pool and jet fires
- Cryogenic releases
- Hydrogen and battery fires

Sectors

- Onshore, offshore
- Upstream, midstream downstream

Industries

- Oil and gas
- Petrochem
- Chemical process
- LNG
- New Energy Carriers

What are the Aims of PFPNet?

**Capture and clarify
what we know**

**Learn about what
we don't know**

**Engage,
disseminate,
educate**

**Develop competency across the whole industry
A common global basis and a level playing field**

PFPNet Membership

- PFPNet is a “technical engine”
- Some is free issue, others is available to Members only
- We provide inputs that are specific to PFP/FP/CSP to organizations with global reach – standards bodies and others
- Membership provides a route to influence – getting good practice into global guidance and standards, and specifications
- Subscriptions are important, but we also need your knowledge
- PFP affects many stakeholders and disciplines
 - Materials, engineering, specification, testing, procurement, application, maintenance, Regulation and Certification

Current Membership

Outputs

- Guidance Documents
- Position Statements
- Specifications
- Standards Development
- Work with Standards Organisations
- Training and Accreditation
- Technical Conferences and Seminars

Accessing PFPNet Information

A copy of the [Information List](#) will be sent to all delegates

Members: Send an email to information@pfpnet.com and we will register you for access to our website

Why are we here today?

Transmit and receive

- Our PFPNet Membership is committed to establishing a thriving local PFPNet presence here
- To connect with our existing, local, PFPNet members (50% of this audience)
- Demonstrate what are doing, and how we can help you
- **Hear about what is important to the industries in this region**
- **This will help guide our future work**
